General Electric IS230SNAIH2A

APPLICABLE ORIGINAL MANUFACTURER MATERIAL

Exact offered reference	IS230SNAIH2A
Manufacturer document	GEZ-S2029 Mark VIe Components with Obsolete Electronics Technology
Applicability	The retained GE table row names the exact catalog number, redundancy, I/O-pack family and quantity, included terminal board, function and DIN-rail mounting.
Use boundary	Use this excerpt with the complete nameplate, installed drawings and the approved site procedure.

Document handling

The following pages are retained from the original manufacturer PDF. External hyperlinks and annotations are removed; the technical page content is not rewritten.
