

APTER POWER PRODUCT MANUAL

6AR1304-0CA00-0AA0

Siemens SMP16-SFT304 legacy module

6AR1304-0CA00-0AA0 is a Siemens SMP16-SFT304 legacy module identified in the manufacturer's product-cancellation notice. The public cancellation document confirms the designation and order number but does not publish the module's signal channels or electrical ratings.

Its operational role must be verified from the original system manual, cabinet drawings, and nameplate before reuse or substitution in the installed automation system.

1. Product Overview and Identity

6AR1304-0CA00-0AA0 is a Siemens SMP16-SFT304 legacy module identified in the manufacturer's product-cancellation notice. The public cancellation document confirms the designation and order number but does not publish the module's signal channels or electrical ratings.

Its operational role must be verified from the original system manual, cabinet drawings, and nameplate before reuse or substitution in the installed automation system.

Model Configuration

Field	Verified information
Complete model	6AR1304-0CA00-0AA0
Manufacturer	Siemens
Product description	Siemens SMP16-SFT304 legacy module

Key Features

- Exact designation confirmed by Siemens cancellation notice
- Model-specific lifecycle date
- No inferred channel or voltage data
- Legacy-system verification workflow

2. Technical Specifications

Only manufacturer-confirmed information is stated. Values absent from the named Siemens source are marked for nameplate or document verification.

Parameter	Verified value
Manufacturer	Siemens
Product designation	SMP16-SFT304
Article number	6AR1304-0CA00-0AA0
Published lifecycle event	Product cancellation (P.M410) on 31 March 2009
Signal and electrical ratings	Not stated in the reviewed cancellation notice

Verification Note

Use the complete 6AR1304-0CA00-0AA0 identifier. Siemens listed 6AR1304-0CA00-0AA0 as product cancellation P.M410 effective 31 March 2009. Current repair or replacement availability must be reconfirmed. Unpublished values are intentionally not inferred.

3. Functions, Applications and Components

Core Functions

- Provides an exact reference for the cancelled SMP16-SFT304 module
- Supports installed-base and spare-parts audits
- Links the order number to its published Siemens lifecycle event

Application Areas

Application	System role
Legacy Siemens control systems	Identify installed SMP16-SFT304 hardware
Spare strategy	Document a cancelled article number
Migration planning	Capture the exact module before redesign

Compatible Components

- Only the rack and project documented for SMP16-SFT304
- Original connectors and field wiring after drawing verification
- No substitute is declared compatible by this page

Lifecycle Status

Siemens listed 6AR1304-0CA00-0AA0 as product cancellation P.M410 effective 31 March 2009. Current repair or replacement availability must be reconfirmed.

4. Installation Precautions

- Verify the physical SMP16-SFT304 nameplate
- Do not infer I/O type or rating from SMP16 alone
- Archive cabinet and wiring drawings
- Confirm system shutdown and ESD procedures
- Obtain written substitution approval before using another article number

STOP - Verify before installation

Use the complete 6AR1304-0CA00-0AA0 identifier. Siemens listed 6AR1304-0CA00-0AA0 as product cancellation P.M410 effective 31 March 2009. Current repair or replacement availability must be reconfirmed. Unpublished values are intentionally not inferred.

Use the physical nameplate and current Siemens documents as the controlling records.

5. Official Source and Use Notice

Official source

Siemens product-cancellation notice dated 31 March 2009, listing 6AR1304-0CA00-0AA0 as SMP16-SFT304.
