

APTER POWER INSTALLATION & VERIFICATION REFERENCE

RMS-TSIG-TZ-C

A separate model-specific field checklist

Use this reference to verify the exact Siemens component before installation, substitution, or recommissioning. It intentionally does not repeat unconfirmed values.

Manufacturer	Siemens
Prepared by	Apter Power
Document ID	AP-SIE-10-RMS-TSIG-TZ-C-IV-R1
Revision	R1
Issue date	2026-08-14

APTER POWER SALES TEAM

INDUSTRIAL AUTOMATION PRODUCT SUPPORT

Identify Every Function. Validate Every Sensor.
Commission Protection Deliberately.

RMS-TSIG-TZ-C

1. Pre-Installation Verification

Step	Check	Required evidence
1	Identity	Match every character of RMS-TSIG-TZ-C to the physical label; record revision and serial data.
2	Host system	Confirm rack, slot, CPU/drive/controller, firmware, project, and machine-builder approval.
3	Electrical	Verify supply, signal type, channel limits, grounding, shielding, and connector pinout from the exact Siemens document.
4	Mechanical	Confirm form factor, keying, mounting, clearances, cable routing, and environmental limits.
5	Lifecycle	The exact lifecycle phase is not publicly confirmed in the Siemens material reviewed. Verify service options using the full nameplate information.
6	Commissioning	Apply the original test procedure and record results before returning the equipment to service.

Product-Specific Precautions

- Photograph the complete trip-unit label and settings
- Do not assume TSIG protection functions without the exact manual
- Verify sensor plugs and breaker-frame rating
- Test protection after installation
- Follow switchgear lockout, PPE, and commissioning rules

2. Commissioning Record

Record item	Site entry
Physical model / MLFB	
Serial or revision	
Host system / machine	
Rack / slot / location	
Firmware / project backup	
Connector and wiring verified	
Functional test result	
Technician / date	

Source Basis

Siemens WinPM.Net documentation for Static Trip III family context and Siemens Industry Online Support; no exact RMS-TSIG-TZ-C data sheet was located.

Important Notice

This Apter Power checklist is not a Siemens installation instruction. The current Siemens documentation, the physical nameplate, the host-equipment manual, and applicable safety rules control all work.
