

APTER POWER INSTALLATION & VERIFICATION REFERENCE

6SE7033-5GJ84-1JC0

A separate model-specific field checklist

Use this reference to verify the exact Siemens component before installation, substitution, or recommissioning. It intentionally does not repeat unconfirmed values.

Manufacturer	Siemens
Prepared by	Apter Power
Document ID	AP-SIE-03-6SE7033-5GJ84-1JC0-IV-R1
Revision	R1
Issue date	2026-08-14

1. Pre-Installation Verification

Step	Check	Required evidence
1	Identity	Match every character of 6SE7033-5GJ84-1JC0 to the physical label; record revision and serial data.
2	Host system	Confirm rack, slot, CPU/drive/controller, firmware, project, and machine-builder approval.
3	Electrical	Verify supply, signal type, channel limits, grounding, shielding, and connector pinout from the exact Siemens document.
4	Mechanical	Confirm form factor, keying, mounting, clearances, cable routing, and environmental limits.
5	Lifecycle	This is legacy SIMOVERT MASTERDRIVES hardware. The exact public Siemens lifecycle phase for the complete suffix was not located; confirm service status with Siemens using rating-plate data.
6	Commissioning	Apply the original test procedure and record results before returning the equipment to service.

Product-Specific Precautions

- Observe hazardous-voltage and DC-link discharge procedures
- Record the complete rating plate and all option-board order numbers
- Back up parameters before removal
- Confirm cooling-medium and airflow requirements
- Do not infer voltage or power from a shortened 6SE7033 code

2. Commissioning Record

Record item	Site entry
Physical model / MLFB	
Serial or revision	
Host system / machine	
Rack / slot / location	
Firmware / project backup	
Connector and wiring verified	
Functional test result	
Technician / date	

Source Basis

Siemens SIMOVERT MASTERDRIVES operating documentation and Siemens Industry Online Support; exact suffix data must be verified from the nameplate.

Important Notice

This Apter Power checklist is not a Siemens installation instruction. The current Siemens documentation, the physical nameplate, the host-equipment manual, and applicable safety rules control all work.
