51202343-001

Series-C Power System Alarm Cable

Honeywell 51202343-001 is a power-system alarm cable used with the documented Series-C digital-input alarm connection.

Parameter	Technical value
Manufacturer	Honeywell
Product model	51202343-001
Part number	51202343-001
Document	Product Technical Reference
Country	USA
HS code	8537101190

1. Product Identity and System Role

Honeywell 51202343-001 is a power-system alarm cable used with the documented Series-C digital-input alarm connection.

System role

- Power-system alarm connection assembly.
- Series-C digital-input alarm-interface use.
- RAM Charger Assembly alarm-circuit connection.
- Terminal-block connection planning for the installed system.

Installation context

Route the cable according to the Series-C power-system alarm procedure and terminate each alarm conductor at the designated digital-input IOTA terminals.

2. Technical Specifications

Parameter	Technical value
Product model	51202343-001
Part number	51202343-001
Cable length	12 ft
Alarm source	Power supply alarm contacts
System interface	Series-C 24V digital inputs
Charger assembly	51199932-100
Country	USA
HS code	8537101190

3. Functions, Applications and Components

Core functions

- Power-system alarm connection assembly.
- Series-C digital-input alarm-interface use.
- RAM Charger Assembly alarm-circuit connection.
- Terminal-block connection planning for the installed system.

Industrial application

Route the cable according to the Series-C power-system alarm procedure and terminate each alarm conductor at the designated digital-input IOTA terminals.

Compatible system components

- Use the matched Honeywell system hardware, terminal arrangement and approved configuration documentation for the installed unit.

4. Engineering Precautions and Source

Product precautions

- Confirm the complete model marking and matched system hardware.
- Follow the approved field wiring and terminal identification.
- Verify the configured point or signal function during commissioning.
- Record the functional check before returning the equipment to service.
