

MANUFACTURER-SOURCE TECHNICAL REFERENCE

ICS Triplex T8030S

Product Reference

Rockwell Automation Trusted OPC Server software package

DOCUMENT SCOPE

Independent Apter Power manual compiled only from the cited Rockwell Automation manufacturer sources. No product photograph is included.

Product / lookup identity	ICS Triplex T8030S
Reference number	T8030S
Document basis	Published Rockwell Automation product records, PDFs, and manuals listed on page 3

Product role and published parameters

WHAT IT IS, WHAT IT DOES, AND WHERE IT FITS

ICS Triplex T8030S is an evidence-bounded Trusted OPC Server software package. System role: Windows-service OPC server supporting OPC DA 1.0/2.05a and Alarms and Events 1.1 for up to 32 Trusted controllers. System context: Rockwell Automation Trusted OPC Server software package.

Published field	Manufacturer-published value or verified identity note
Exact catalog number	T8030S
Product type	Trusted OPC Server software package
Official role	Windows-service OPC server supporting OPC DA 1.0/2.05a and Alarms and Events 1.1 for up to 32 Trusted controllers.
Current official listing	T8030S OPC Server, software revision 352100 Build 109
Physical dimensions / shipment weight	Not applicable or not published for the license form
Origin / HS code	Not published for the requested license
Verification Status	Verified Exact Model And Current Certificate

System function and signal path

01	System Inputs: Windows-service OPC server supporting OPC DA 1.0/2.05a and Alarms and Events 1.1 for up to 32 Trusted controllers.
02	Processing: Use only with the compatible Trusted release, workstation operating environment, controller firmware and licensed entitlement documented for the installed system.

Applications, answers, and official sources

1 Installed-base maintenance: Supports evidence-led identification and replacement planning for ICS Triplex T8030S.

2 System documentation: Provides a source-traceable boundary for the documented Trusted 8000 software and engineering environment configuration.

3 Commissioning review: Guides identity, companion-hardware, wiring and controlled functional checks before return to service.

4 Migration assessment: Separates exact-model facts from successor, sibling and family-level information.

Frequently asked questions

What is ICS Triplex T8030S?	It is an evidence-bounded Trusted OPC Server software package; this page is limited to the cited manufacturer evidence.
Is the exact identity verified?	Verified Exact Model And Current Certificate.
What is its system role?	Windows-service OPC server supporting OPC DA 1.0/2.05a and Alarms and Events 1.1 for up to 32 Trusted controllers.
Which installed-base context is documented?	Trusted 8000 software and engineering environment.
Are related models automatic substitutes?	No. A sibling, repair code, suffix or engineering replacement is not an unconditional drop-in approval.
Must the physical label be checked?	Yes. Verify the model, revision, firmware and all order or configuration suffixes.
