Product role and published parameters

WHAT IT IS, WHAT IT DOES, AND WHERE IT FITS

ICS Triplex T9090M is an evidence-bounded AADvance-Trusted SIS Workstation software license catalog form. System role: It is an order-facing SIS Workstation software/license form for AADvance-Trusted safety-system engineering and maintenance. System context: Rockwell Automation AADvance-Trusted SIS Workstation software license catalog form.

Published field	Manufacturer-published value or verified identity note
Exact requested catalog	T9090M
Software family	AADvance-Trusted SIS Workstation
Official base catalog role	T9090 = AADvance license
M suffix entitlement	HOLD - verify Rockwell order record
Current build / host OS	Verify current Product Compatibility and Download Center record
Physical weight / dimensions	Not applicable to the software entitlement
Verification Status	Verified Exact Catalog Family Suffix Entitlement Hold

System function and signal path

01	System Inputs: It is an order-facing SIS Workstation software/license form for AADvance-Trusted safety-system engineering and maintenance.
02	Processing: Use only with a supported SIS Workstation build, licensed entitlement, Windows environment and compatible AADvance or Trusted system release.

Applications, answers, and official sources

1 Installed-base maintenance: Supports evidence-led identification and replacement planning for ICS Triplex T9090M.

2 System documentation: Provides a source-traceable boundary for the documented AADvance-Trusted SIS Workstation software environment configuration.

3 Commissioning review: Guides identity, companion-hardware, wiring and controlled functional checks before return to service.

4 Migration assessment: Separates exact-model facts from successor, sibling and family-level information.

Frequently asked questions

What is ICS Triplex T9090M?	It is an evidence-bounded AADvance-Trusted SIS Workstation software license catalog form; this page is limited to the cited manufacturer evidence.
Is the exact identity verified?	Verified Exact Catalog Family Suffix Entitlement Hold.
What is its system role?	It is an order-facing SIS Workstation software/license form for AADvance-Trusted safety-system engineering and maintenance.
Which installed-base context is documented?	AADvance-Trusted SIS Workstation software environment.
Are related models automatic substitutes?	No. A sibling, repair code, suffix or engineering replacement is not an unconditional drop-in approval.
Must the physical label be checked?	Yes. Verify the model, revision, firmware and all order or configuration suffixes.
