

MANUFACTURER-SOURCE TECHNICAL REFERENCE

ICS Triplex TC-215-02-10M5

Product Reference

Rockwell Automation Trusted low-smoke zero-halogen system cable

DOCUMENT SCOPE

Independent Apter Power manual compiled only from the cited Rockwell Automation manufacturer sources. No product photograph is included.

Product / lookup identity	ICS Triplex TC-215-02-10M5
Reference number	TC-215-02-10M5
Document basis	Published Rockwell Automation product records, PDFs, and manuals listed on page 3

Product role and published parameters

WHAT IT IS, WHAT IT DOES, AND WHERE IT FITS

ICS Triplex TC-215-02-10M5 is an evidence-bounded Trusted low-smoke zero-halogen system cable. System role: Internal 40-channel Companion Slot digital output cable to an FTA with integral power. System context: Rockwell Automation Trusted low-smoke zero-halogen system cable.

Published field	Manufacturer-published value or verified identity note
Requested part number	TC-215-02-10M5
Cable family	TC-215
Insulation code	02 = LSZH, flame retardant to IEC 60332-3 Cat A
Cable length	10.5 m
Maximum recommended I/O cable length	15 m
Origin / HS code / shipment weight	Not published for the exact requested cable
Verification Status	Verified Manufacturer Part Number Pattern And Requested Length

System function and signal path

01	System Inputs: Internal 40-channel Companion Slot digital output cable to an FTA with integral power.
02	Processing: Use only with the exact Trusted modules, adapters, FTA/VFTA, slot mode and connector arrangement documented for this cable family.

Applications, answers, and official sources

1 Installed-base maintenance: Supports evidence-led identification and replacement planning for ICS Triplex TC-215-02-10M5.

2 System documentation: Provides a source-traceable boundary for the documented Trusted TC-215 cable architecture configuration.

3 Commissioning review: Guides identity, companion-hardware, wiring and controlled functional checks before return to service.

4 Migration assessment: Separates exact-model facts from successor, sibling and family-level information.

Frequently asked questions

What is ICS Triplex TC-215-02-10M5?	It is an evidence-bounded Trusted low-smoke zero-halogen system cable; this page is limited to the cited manufacturer evidence.
Is the exact identity verified?	Verified Manufacturer Part Number Pattern And Requested Length.
What is its system role?	Internal 40-channel Companion Slot digital output cable to an FTA with integral power.
Which installed-base context is documented?	Trusted TC-215 cable architecture.
Are related models automatic substitutes?	No. A sibling, repair code, suffix or engineering replacement is not an unconditional drop-in approval.
Must the physical label be checked?	Yes. Verify the model, revision, firmware and all order or configuration suffixes.
