Workflow and system context

ICS Triplex T8082D is an evidence-bounded Trusted IEC 1131 Toolset Suite software-license option. System role: Software/hard-drive-key license option for the Trusted Toolset Suite; licensing requires the documented PC and email-client workflow.

- | | |
|----|--|
| 01 | System Inputs: Software/hard-drive-key license option for the Trusted Toolset Suite; licensing requires the documented PC and email-client workflow. |
| 02 | Processing: Use only with the compatible Trusted release, workstation operating environment, controller firmware and licensed entitlement documented for the installed system. |

Published context and boundaries

- | | |
|----|--|
| 01 | Verify the complete ICS Triplex T8082D physical label and installed-system documentation before use. |
| 02 | Do not treat a different T80xx software option, key type, build, seat count or successor workstation bundle as the same license. |
| 03 | Origin and HS code remain unpublished unless an exact manufacturer record or the physical package label establishes them. |

Verification and release checks

01	Verify the complete ICS Triplex T8082D label, revision and installed-system documentation before use.
02	Do not treat a different T80xx software option, key type, build, seat count or successor workstation bundle as the same license.
03	De-energize the equipment and follow the site's approved electrical and process-safety procedure before disturbing hardware or wiring.
04	Back up controller, drive, network and configuration data before replacement, migration or firmware work.
05	Verify every companion module, cable, connector, termination and power source from approved drawings.
06	Do not copy electrical, communication, mechanical or lifecycle values from a related model or successor.

Identity and release controls

Verification Status	Verified Exact License Form
