

MANUFACTURER-SOURCE TECHNICAL REFERENCE

ICS Triplex T8891C

Product Reference

Rockwell Automation conformally coated versatile-field two-channel DC relay field termination assembly

DOCUMENT SCOPE

Independent Apter Power manual compiled only from the cited Rockwell Automation manufacturer sources. No product photograph is included.

Product / lookup identity	ICS Triplex T8891C
Reference number	T8891C
Document basis	Published Rockwell Automation product records, PDFs, and manuals listed on page 3

Product role and published parameters

WHAT IT IS, WHAT IT DOES, AND WHERE IT FITS

ICS Triplex T8891C is an evidence-bounded conformally coated versatile-field two-channel DC relay field termination assembly. System role: It is a 2-channel Trusted conformally coated FTA used only with the compatible module, cable and application documented for its exact model. System context: Rockwell Automation conformally coated versatile-field two-channel DC relay field termination assembly.

Published field	Manufacturer-published value or verified identity note
Exact model	T8891C
Rockwell part number	207498
Product class	conformally coated versatile-field two-channel DC relay field termination assembly
Channels	2
Coating option	Conformal coated
Verification Status	Verified Exact Model And Part Number

System function and signal path

- 01 System Inputs: It is a 2-channel Trusted conformally coated FTA used only with the compatible module, cable and application documented for its exact model.
- 02 Processing: Verify the paired Trusted I/O module, cable assembly, field voltage, wiring and hazardous-area requirements from the exact product manual.

Applications, answers, and official sources

1 Installed-base maintenance: Supports evidence-led identification and replacement planning for ICS Triplex T8891C.

2 System documentation: Provides a source-traceable boundary for the documented Trusted TMR field termination architecture configuration.

3 Commissioning review: Guides identity, companion-hardware, wiring and controlled functional checks before return to service.

4 Migration assessment: Separates exact-model facts from successor, sibling and family-level information.

Frequently asked questions

What is ICS Triplex T8891C?	It is an evidence-bounded conformally coated versatile-field two-channel DC relay field termination assembly; this page is limited to the cited manufacturer evidence.
Is the exact identity verified?	Verified Exact Model And Part Number.
What is its system role?	It is a 2-channel Trusted conformally coated FTA used only with the compatible module, cable and application documented for its exact model.
Which installed-base context is documented?	Trusted TMR field termination architecture.
Are related models automatic substitutes?	No. A sibling, repair code, suffix or engineering replacement is not an unconditional drop-in approval.
Must the physical label be checked?	Yes. Verify the model, revision, firmware and all order or configuration suffixes.
