Workflow and system context

ICS Triplex T9090M is an evidence-bounded AADvance-Trusted SIS Workstation software license catalog form. System role: It is an order-facing SIS Workstation software/license form for AADvance-Trusted safety-system engineering and maintenance.

- | | |
|----|---|
| 01 | System Inputs: It is an order-facing SIS Workstation software/license form for AADvance-Trusted safety-system engineering and maintenance. |
| 02 | Processing: Use only with a supported SIS Workstation build, licensed entitlement, Windows environment and compatible AADvance or Trusted system release. |

Published context and boundaries

- | | |
|----|--|
| 01 | Verify the complete ICS Triplex T9090M physical label and installed-system documentation before use. |
| 02 | The official public documents do not decode the terminal M suffix into a seat count, media form or entitlement quantity; verify the Rockwell order record before supply. |
| 03 | Origin and HS code remain unpublished unless an exact manufacturer record or the physical package label establishes them. |

Verification and release checks

01	Verify the complete ICS Triplex T9090M label, revision and installed-system documentation before use.
02	The official public documents do not decode the terminal M suffix into a seat count, media form or entitlement quantity; verify the Rockwell order record before supply.
03	De-energize the equipment and follow the site's approved electrical and process-safety procedure before disturbing hardware or wiring.
04	Back up controller, drive, network and configuration data before replacement, migration or firmware work.
05	Verify every companion module, cable, connector, termination and power source from approved drawings.
06	Do not copy electrical, communication, mechanical or lifecycle values from a related model or successor.

Identity and release controls

Verification Status	Verified Exact Catalog Family Suffix Entitlement Hold
