

MANUFACTURER-SOURCE TECHNICAL REFERENCE

ICS Triplex T8090M

Product Reference

Rockwell Automation AADvance-Trusted SIS Workstation license catalog code

DOCUMENT SCOPE

Independent Apter Power manual compiled only from the cited Rockwell Automation manufacturer sources. No product photograph is included.

Product / lookup identity	ICS Triplex T8090M
Reference number	T8090M
Document basis	Published Rockwell Automation product records, PDFs, and manuals listed on page 3

Product role and published parameters

WHAT IT IS, WHAT IT DOES, AND WHERE IT FITS

ICS Triplex T8090M is an evidence-bounded AADvance-Trusted SIS Workstation license catalog code. System role: Exact T8090M catalog code listed for the SIS Workstation product family; seat, build and entitlement details remain order-record dependent. System context: Rockwell Automation AADvance-Trusted SIS Workstation license catalog code.

Published field	Manufacturer-published value or verified identity note
Exact catalog number	T8090M
Product type	AADvance-Trusted SIS Workstation license catalog code
Official role	Exact T8090M catalog code listed for the SIS Workstation product family; seat, build and entitlement details remain order-record dependent.
Current official listing	T8090M exact workstation license code; build and seat mapping require order record
Physical dimensions / shipment weight	Not applicable or not published for the license form
Origin / HS code	Not published for the requested license
Verification Status	Verified Exact Catalog Family Configuration Hold

System function and signal path

01	System Inputs: Exact T8090M catalog code listed for the SIS Workstation product family; seat, build and entitlement details remain order-record dependent.
02	Processing: Use only with the compatible Trusted release, workstation operating environment, controller firmware and licensed entitlement documented for the installed system.

Applications, answers, and official sources

1 Installed-base maintenance: Supports evidence-led identification and replacement planning for ICS Triplex T8090M.

2 System documentation: Provides a source-traceable boundary for the documented Trusted 8000 software and engineering environment configuration.

3 Commissioning review: Guides identity, companion-hardware, wiring and controlled functional checks before return to service.

4 Migration assessment: Separates exact-model facts from successor, sibling and family-level information.

Frequently asked questions

What is ICS Triplex T8090M?	It is an evidence-bounded AADvance-Trusted SIS Workstation license catalog code; this page is limited to the cited manufacturer evidence.
Is the exact identity verified?	Verified Exact Catalog Family Configuration Hold.
What is its system role?	Exact T8090M catalog code listed for the SIS Workstation product family; seat, build and entitlement details remain order-record dependent.
Which installed-base context is documented?	Trusted 8000 software and engineering environment.
Are related models automatic substitutes?	No. A sibling, repair code, suffix or engineering replacement is not an unconditional drop-in approval.
Must the physical label be checked?	Yes. Verify the model, revision, firmware and all order or configuration suffixes.
