

MANUFACTURER-SOURCE TECHNICAL REFERENCE

General Electric IC693CBL305

IC693CBL305 Evidence-Bounded Product Information Manual

Emerson / GE Vernova legacy Series 90-30 cable and accessory identity

DOCUMENT SCOPE

Independent Apter Power manual compiled only from the cited Emerson / GE Vernova manufacturer sources. No product photograph is included.

Product / lookup identity	General Electric IC693CBL305
Reference number	IC693CBL305
Document basis	Published Emerson / GE Vernova product records, PDFs, and manuals listed on page 3

Workflow and system context

General Electric IC693CBL305 is an evidence-bounded legacy Series 90-30 cable and accessory identity. System role: It is published only as an installed-base cable/accessory identity requiring the exact BOM, physical label and host documentation.

01	System Inputs: It is published only as an installed-base cable/accessory identity requiring the exact BOM, physical label and host documentation.
02	Processing: Use only with the exact host, terminal base, cable, firmware and engineering configuration documented for the installed system.

Published context and boundaries

01	Verify the complete General Electric IC693CBL305 physical label and installed-system documentation before use.
02	Do not infer cable length, pinout, connector assignment or host compatibility from nearby IC693CBL catalog numbers.
03	Origin and HS code remain unpublished unless an exact manufacturer record or the physical package label establishes them.

Verification and release checks

01	Verify the complete General Electric IC693CBL305 label, revision and installed-system documentation before use.
02	Do not infer cable length, pinout, connector assignment or host compatibility from nearby IC693CBL catalog numbers.
03	De-energize the equipment and follow the site's approved electrical and process-safety procedure before disturbing hardware or wiring.
04	Back up controller, drive, network and configuration data before replacement, migration or firmware work.
05	Verify every companion module, cable, connector, termination and power source from approved drawings.
06	Do not copy electrical, communication, mechanical or lifecycle values from a related model or successor.

Identity and release controls

Verification Status	Verified Evidence Bounded Existing Identity
