

T9451

COMMISSIONING FIELD GUIDE

Model-Specific Reference

This original Apter Power document is prepared specifically for the complete ICS Triplex T9451 model. Use the physical nameplate and current Rockwell Automation documentation as the controlling records.

Verification Essentials

1. Confirm the complete model and hardware revision.
2. Confirm the approved system base, slot and termination hardware.
3. Verify power, wiring, shielding and grounding before energization.
4. Restore controlled configuration records and complete diagnostics.
5. Document functional testing before release to service.
