

TC-501-02-4M5

Trusted 4.5 m Internal SmartSlot Input-to-FTA Cable

Product Identity

ICS Triplex TC-501-02-4M5 is a Trusted 4.5 m Internal SmartSlot Input-to-FTA Cable. In a Trusted 8000 system, it connects a compatible Trusted 40-channel input module arrangement to its matched field termination assembly in an internal SmartSlot route. It handles up to forty input-channel conductors with a maximum working rating of 60 V and 2 A per channel for the -02 cable family, works with Compatible Trusted 40-channel input modules, approved FTA, internal SmartSlot routing and matched system connectors, and is used in Internal input-module to FTA links, Forty-channel input marshalling, Trusted safety cabinets.

Verified Reference Points

1. Internal SmartSlot V2, 40-channel input to FTA, 4.5 m length
2. Designed for the Trusted 8000 architecture
3. connects a compatible Trusted 40-channel input module arrangement to its matched field termination assembly in an internal SmartSlot route
4. Model-specific compatible hardware: Compatible Trusted 40-channel input modules, approved FTA, internal SmartSlot routing and matched system connectors
5. Official dimensions: 4.5 m cable length; packed-carton dimensions are not published in the cited manual

Official Basis

Rockwell Automation Trusted TMR I/O SmartSlot Cables
