## Workflow and system context

Honda Electronics W-357-IMPDP is an industrial ultrasonic nozzle whose production ended in April 2021. Use W-357-IMPDP only with the exact host, rack or chassis, terminal hardware, cable and project configuration specified for the installed system.

- |    |                                                                                                                                                               |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 01 | System Inputs: industrial ultrasonic nozzle                                                                                                                   |
| 02 | Processing: Use W-357-IMPDP only with the exact host, rack or chassis, terminal hardware, cable and project configuration specified for the installed system. |

## Published context and boundaries

- |    |                                                                                                                                                   |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 01 | Use W-357-IMPDP only with the exact host, rack or chassis, terminal hardware, cable and project configuration specified for the installed system. |
| 02 | Lifecycle evidence boundary: Use the cited model-level lifecycle statement where supplied.                                                        |
| 03 | Verify the complete HONDA ELECTRONICS W-357-IMPDP physical label before use.                                                                      |

## Verification and release checks

|    |                                                                                                                                                  |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------|
| 01 | Verify the complete HONDA ELECTRONICS W-357-IMPD physical label before use.                                                                      |
| 02 | Use W-357-IMPD only with the exact host, rack or chassis, terminal hardware, cable and project configuration specified for the installed system. |
| 03 | Confirm the exact rack or chassis position, terminal assembly, cable, connector, power and project revision.                                     |
| 04 | De-energize the equipment unless the exact hardware manual and site procedure explicitly permit energized service.                               |
| 05 | Back up controller, communication and I/O configuration before replacement or migration work.                                                    |
| 06 | Do not transfer electrical, communication or mechanical values from a related model or different suffix.                                         |

## Identity and release controls
