

MANUFACTURER-SOURCE TECHNICAL REFERENCE

ABB DSDI131 57160001-GV

DSDI131 57160001-GV Verification Product Information Manual

ABB requested ABB legacy digital-input identity reference product reference

DOCUMENT SCOPE

Independent Apter Power manual limited to verified identity evidence and any directly relevant ABB sources listed in this document. No product photograph is included.

Product / lookup identity	ABB DSDI131 57160001-GV
Reference number	DSDI131 57160001-GV
Document basis	Published ABB product records, PDFs, and manuals listed on page 3

Workflow and system context

ABB DSDI131 is an evidence-bounded requested ABB legacy digital-input identity reference. Compatibility boundary: Do not use DSDI130 or DSDI110A specifications as if they applied to DSDI131.

01	System Inputs: requested ABB legacy digital-input identity reference
02	Processing: Do not use DSDI130 or DSDI110A specifications as if they applied to DSDI131.

Published context and boundaries

01	DSDI131 and 57160001-GV are retained for nameplate verification; no directly relevant ABB-hosted exact-model document was found.
02	Do not use DSDI130 or DSDI110A specifications as if they applied to DSDI131.
03	Country of origin, HS code, dimensions and logistics weight remain unpublished without exact ABB model-level evidence.

Verification and release checks

01	Verify the complete ABB DSDI131 label and requested part number before use.
02	Do not use DSDI130 or DSDI110A specifications as if they applied to DSDI131.
03	Confirm the exact host controller, rack position, terminal unit, cable, connector, firmware and project revision.
04	De-energize the equipment and follow the site's approved electrical and process-safety procedure before disturbing hardware or wiring.
05	Back up controller, communication and I/O configuration before replacement or migration work.
06	Do not transfer channels, ranges, voltage, current, communication, mechanical or lifecycle values from a sibling, predecessor or successor.

Identity and release controls

Verification Status	Requested Label Only
---------------------	----------------------

Official ABB sources

Source-link status	No directly relevant official manufacturer source link was found for this exact requested identity. Unrelated and third-party links are intentionally omitted.
