

ABB 3BHE004573R0042 UFC760-BE42

Product Reference Manual

Exact-ID reference for the ABB INT, UF C760 BE42 assembly

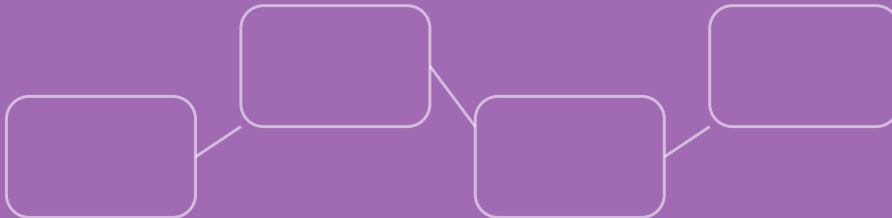

ABB product / lookup identity	3BHE004573R0042
Document scope	Independent Apter Power reference compiled only from the cited ABB public sources.
Image policy	No product photograph is included in this document.

Product identity and system role

ABB identifies 3BHE004573R0042 as INT, UF C760 BE42, a main-circuit interface spare part for INU equipment. It performs the designated interface function within that main-circuit configuration. ABB’s public product record does not publish the handled signal types, connector allocation, electrical ratings or exact compatible INU models, so these items must be taken from the documentation for the installed equipment.

Official parameter	Published value
ABB type designation	INT, UF C760 BE42
Product name	MAIN CIRC. INTER.
Intended equipment	FOR INU
Product / part type	Spare_Parts / New
Replacement ID	3BHE004573R0142
Net / gross mass	0.41 kg / 0.451 kg
Country of origin	United States / Switzerland
Customs tariff / CN8	85049090 / 85049099

Functional path

1	Installed INU configuration identifies the required main-circuit interface assembly.
2	The complete Product ID 3BHE004573R0042 and board designation are matched before removal.
3	Connector and signal assignments are verified only from the applicable ABB equipment documentation.
4	ABB lists 3BHE004573R0142 for modernization; it must be treated as a separate replacement ID.

Compatible context

Designated ABB INU equipment	Existing harness and connector set defined by the host equipment
ABB replacement product 3BHE004573R0142	Host-system drawings and service instructions

Applications supported by the cited ABB material

Main-circuit interface duty in the designated ABB INU configuration	Exact-revision service work using the full Product ID
Modernization planning after ABB's non-availability notice	Controlled replacement where host documentation calls for R0042

Frequently asked questions

What is this product?	ABB identifies it as INT, UF C760 BE42; MAIN CIRC. INTER.
Which equipment is stated?	ABB's technical information says FOR INU; no exact INU model is publicly listed.
Are signal types published?	No public signal, pinout or electrical-rating data is provided.
Is a replacement identified?	Yes. ABB lists 3BHE004573R0142 as the replacement Product ID.
What is the availability statement?	ABB announced non-availability of this PCBA and directs modernization enquiries to SRU MVD Sales.
Which origins are listed?	ABB lists both the United States and Switzerland.
