

MANUFACTURER-SOURCE TECHNICAL REFERENCE

Honeywell MU-FOED02 51197564-200

MU-FOED02 Product Information Manual

UCN fiber-optic extender pair

DOCUMENT SCOPE

Apter Power product reference prepared from product-specific Honeywell technical information. Confirm the complete product identity and installed-system requirements before use. No product photograph is included.

Product / lookup identity	Honeywell MU-FOED02 51197564-200
Reference number	51197564-200

Workflow and system context

Honeywell MU-FOED02 is a Universal Control Network fiber-optic extender pair identified by part number 51197564-200. Its primary hardware function is UCN fiber-optic extender pair.

01	System Inputs: UCN fiber-optic extender pair
02	Processing: Honeywell MU-FOED02 is a Universal Control Network fiber-optic extender pair identified by part number 51197564-200.

Published context and boundaries

01	Use MU-FOED02 with the exact Honeywell host, companion hardware, terminal assembly and field wiring specified for the installed system.
02	Verify model MU-FOED02 and part number 51197564-200 on the physical label before use.
03	Match every MU-FOED02 connector, terminal, cable and companion assembly before moving field wiring.

Verification and release checks

01	Verify model MU-FOED02 and part number 51197564-200 on the physical label before use.
02	Use MU-FOED02 with the exact Honeywell host, companion hardware, terminal assembly and field wiring specified for the installed system.
03	Match every MU-FOED02 connector, terminal, cable and companion assembly before moving field wiring.
04	Back up the applicable controller, node, I/O or communication configuration before replacing MU-FOED02.
05	Isolate energy before handling MU-FOED02 unless the applicable hardware procedure explicitly permits energized service.
06	Follow ESD controls and protect MU-FOED02 connectors and printed-circuit assemblies during handling.
