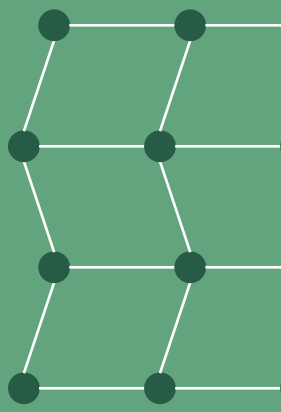
Honeywell MC-TAMT03 51309223-175

MC-TAMT03 Product Information Manual

LLMux thermocouple field termination assembly



DOCUMENT SCOPE

Apter Power product reference prepared from product-specific Honeywell technical information. Confirm the complete product identity and installed-system requirements before use. No product photograph is included.

Product / lookup identity	Honeywell MC-TAMT03 51309223-175
Reference number	51309223-175

Workflow and system context

Honeywell MC-TAMT03 is a conformally coated 16-channel LLMux thermocouple field termination assembly with compression terminals. Its primary hardware function is LLMux thermocouple field termination assembly.

01	System Inputs: LLMux thermocouple field termination assembly
02	Processing: Honeywell MC-TAMT03 is a conformally coated 16-channel LLMux thermocouple field termination assembly with compression terminals. Its part number is 51309223-175.

Published context and boundaries

01	Use MC-TAMT03 with the exact Honeywell host, companion hardware, terminal assembly and field wiring specified for the installed system.
02	Verify model MC-TAMT03 and part number 51309223-175 on the physical label before use.
03	Match every MC-TAMT03 connector, terminal, cable and companion assembly before moving field wiring.

Verification and release checks

01	Verify model MC-TAMT03 and part number 51309223-175 on the physical label before use.
02	Use MC-TAMT03 with the exact Honeywell host, companion hardware, terminal assembly and field wiring specified for the installed system.
03	Match every MC-TAMT03 connector, terminal, cable and companion assembly before moving field wiring.
04	Back up the applicable controller, node, I/O or communication configuration before replacing MC-TAMT03.
05	Isolate energy before handling MC-TAMT03 unless the applicable hardware procedure explicitly permits energized service.
06	Follow ESD controls and protect MC-TAMT03 connectors and printed-circuit assemblies during handling.
