

51403519-160

Application and Configuration Guide | K4SDR 16 MW

Honeywell 51403519-160 is identified by Honeywell as K4SDR 16 MW in the Honeywell coax platform listing. The part is shown in the HG hardware grouping.

Application features

- K4SDR 16 MW product designation
- HG hardware grouping
- Honeywell coax platform listing
- Model-specific installed-base identity

Use and configuration

This item belongs in the documented Honeywell coax-platform hardware context. Installation and replacement depend on the exact installed node configuration and the physical identification on the unit.

Pre-use verification

1	Record the installed node position and all connected companion hardware.
2	Confirm the 51403519-160 and K4SDR 16 MW identification from the physical unit.
3	Follow the approved coax-platform isolation and replacement procedure.
4	Reapply the site configuration and perform the documented communication and functional checks.

Important Notice: Confirm 51403519-160 and the K4SDR 16 MW nameplate, the installed HG configuration, companion hardware and current project documentation before replacement or commissioning.
