PRODUCT OVERVIEW

Honeywell 51196694-904 provides operator keyboard input for a documented Honeywell console installation in a documented Honeywell IKB Integrated Keyboard installation.

Full-travel operator keyboard

IKB Integrated Keyboard family

Honeywell Extended support status

Documented OEP and OTP migration alternatives

SYSTEM COMPONENTS

DOCUMENTED COMPONENT	ROLE IN SYSTEM
Proximity probe	Matched extension cable
Proximitor Sensor	AISI 4140 target

ENGINEERING CONTEXT

The component remains matched to its documented host position, field connections and approved engineering configuration. Commissioning restores that architecture and verifies the intended function under controlled conditions.

TECHNICAL DATA

PARAMETER	VALUE
Product type	Integrated operator keyboard
Part number	51196694-904
Product family	IKB Integrated Keyboard
Honeywell description	K/B FULL TRAVEL
Support status	Extended

PARAMETER	VALUE
Manufacturing status	Further manufacturing not possible after available
Migration alternatives	OEP and OTP provide equivalent supported
Replacement scope	Console compatibility, interface, key mapping and
Commissioning scope	Keyboard response, assigned functions, console focus and

TECHNICAL NOTE

Install 51196694-904 only in the documented Honeywell IKB Integrated Keyboard position and preserve its exact wiring, interfaces and configuration. After controlled energization, verify diagnostics and operator keyboard input for a documented Honeywell console installation before release.

APPLICATIONS & PRECAUTIONS

COMMON APPLICATIONS

Legacy Honeywell operator console

Provides full-travel keyboard input for the documented console position.

Maintenance replacement

Preserves interface, key mapping and operator workflow on the existing station.

Migration assessment

Supports planning toward Honeywell OEP or OTP operator-interface products.

Console acceptance testing

Verifies keys, navigation, focus and alarm-response workflow with the operator.

PRODUCT PRECAUTIONS

- 1
- Confirm part number 51196694-904 and the IKB console position.
- 2
- Place the operator station and affected process supervision in the approved maintenance state.
- 3
- Record connector type, key mapping, special functions and console configuration.
- 4
- Disconnect the keyboard using the approved workstation procedure.
- 5
- Inspect the replacement interface and console compatibility before connection.
- 6
- Restore the documented keyboard and operator-station settings.
- 7
- Verify every required key, navigation and alarm-acknowledgement function.
- 8
- Record operator acceptance and any OEP or OTP migration action before release.

ENGINEER FAQ

Q1 Which Honeywell product family contains 51196694-904?

It is listed in the IKB Integrated Keyboard product family.

Q2 How does Honeywell describe 51196694-904?

Honeywell describes it as K/B FULL TRAVEL.

Q3 Which support status is listed for 51196694-904?

Honeywell lists the part in Extended support.

Q4 Why is future manufacturing constrained for 51196694-904?

Honeywell states that critical components are unavailable for further manufacturing.

Q5 What happens to 51196694-904 after available inventory is exhausted?

The part moves to phased-out status with no future supply.

Q6 Which supported alternatives are identified for 51196694-904?

Honeywell identifies OEP and OTP products as providing equivalent supported functionality.

Q7 Which console details must be recorded before replacing 51196694-904?

Record the connector, key mapping, special functions and operator-station configuration.

Q8 Which operator checks release 51196694-904 after service?

Verify required keys, navigation, focus, alarm acknowledgement and operator acceptance.
