

INDUSTRIAL AUTOMATION PRODUCT

FC-FANWR-24R

FC-FANWR-24R 24 VDC Fan Unit with Readback

Honeywell FC-FANWR-24R is the FC-FANWR-24R 24 VDC Fan Unit with Readback used for active cabinet cooling with monitored fan-speed readback in a documented Honeywell Safety Manager installation. Confirm the complete identity and installed system configuration before replacement.

CONTROLLED ENGINEERING COPY

IDENTITY	VERIFIED VALUE
Manufacturer	Honeywell
System family	Honeywell Safety Manager
Part number	FC-FANWR-24R
Document status	Controlled product and system reference

DOCUMENT SCOPE

Exact article identity, official technical data, host matching, installation checks, applications, precautions and controlled acceptance evidence.

MODEL-SPECIFIC ENGINEERING NOTE

Install FC-FANWR-24R only in its documented Honeywell Safety Manager position. Preserve the exact interfaces, wiring and configuration, then verify diagnostics and active cabinet cooling with monitored fan-speed readback under controlled conditions.

System Role and Architecture

Honeywell FC-FANWR-24R is the FC-FANWR-24R 24 VDC Fan Unit with Readback used for active cabinet cooling with monitored fan-speed readback in a documented Honeywell Safety Manager installation. Confirm the complete identity and installed system configuration before replacement.

FUNCTION 1
Fan count: 2

FUNCTION 2
Readback: Fan-speed status contact

FUNCTION 3
Status indication: Green LED per fan above minimum speed

FUNCTION 4
Execution: Conformally coated FC version

MATCHED SYSTEM COMPONENTS

NO.	DOCUMENTED COMPONENT / ROLE
01	Honeywell Safety Manager
02	Matched Honeywell Safety Manager host and field interface
03	Documented power, signal, communication and grounding connections
04	Approved configuration, diagnostics and acceptance record

SYSTEM INTEGRATION RECORD

INTEGRATION ITEM	DOCUMENTED ROLE
Host identity	Honeywell Safety Manager
Interface role	active cabinet cooling with monitored fan-speed readback
Field / power context	documented Honeywell Safety Manager installed position
Commissioning evidence	Identity, wiring, configuration, diagnostics and controlled response recorded

INSTALLATION AND CONNECTION CHECKS

1 Confirm the complete FC-FANWR-24R identity on the hardware and maintenance record.

2 Place the affected Honeywell Safety Manager process in the approved maintenance state.

3 Record the installed position, connectors, terminals, wiring and configuration before removal.

4 Isolate all documented power and field energy and apply ESD controls where required.

Technical Specifications

Technical values below are limited to the named product record and directly applicable manufacturer documentation.

PARAMETER	VALUE	PARAMETER	VALUE
Product type	Dual-fan cooling unit with readback	Readback	Fan-speed status contact
Model	FC-FANWR-24R	Status indication	Green LED per fan above minimum speed
Supply	24 VDC	Execution	Conformally coated FC version
Fan count	2	Current lifecycle reference	Honeywell System HINTS replacement assembly

ENGINEERING BOUNDARY

Confirm FC-FANWR-24R, its exact host, installed position, interfaces, configuration, diagnostics and controlled acceptance evidence before release.

PRE-INSTALLATION CHECKS

- 1

Confirm the complete FC-FANWR-24R identity on the hardware and maintenance record.
- 2

Place the affected Honeywell Safety Manager process in the approved maintenance state.
- 3

Record the installed position, connectors, terminals, wiring and configuration before removal.
- 4

Isolate all documented power and field energy and apply ESD controls where required.

Applications and Engineering Context

FC-FANWR-24R 24 VDC Fan Unit with Readback

Provides active cabinet cooling with monitored fan-speed readback in the approved Honeywell Safety Manager architecture.

Installed-system maintenance

Preserves the documented slot, termination, wiring and configuration during replacement.

Controlled commissioning

Restores power and signals in the approved sequence and reviews diagnostics.

Acceptance verification

Confirms the intended channel, network or safety function before release.

TECHNICAL NOTE

Install FC-FANWR-24R only in its documented Honeywell Safety Manager position. Preserve the exact interfaces, wiring and configuration, then verify diagnostics and active cabinet cooling with monitored fan-speed readback under controlled conditions.

MODEL-SPECIFIC ACCEPTANCE EVIDENCE

CHECK	ACCEPTANCE CONDITION
Identity	FC-FANWR-24R recorded
Host / carrier	Honeywell Safety Manager
Physical interface	Installed terminals, ports and signals matched to the as-found record
Configuration	Approved Honeywell hardware and system configuration restored
Functional proof	Controlled test confirms active cabinet cooling with monitored fan-speed readback

IMPORTANT NOTICE

Confirm FC-FANWR-24R, its exact host, installed position, interfaces, configuration, diagnostics and controlled acceptance evidence before release.
