

PRODUCT RANGE

# Automation parts. Start with the right reference.

Explore selected brands and system families, then send the details of the part you need.

Explore the range →

A practical guide for your next parts enquiry.

SELECTED AUTOMATION HARDWARE

## RANGE AT A GLANCE

# Find the brand. Identify the family.

Start with the system name, then use the full part number and label photo to distinguish the version you need.

**ABB**

Manufacturer enquiry

**Honeywell**

TDC / TPS / Experion PKS

**Bently Nevada**

Manufacturer enquiry

**General Electric**

PLC, I/O and board families

**Triconex**

Tricon system cards

**Schneider Electric**

Quantum / Modicon Premium

**Siemens**

MOORE / S5

**Foxboro**

I/A Series system modules

This is a range overview, not a live stock list. Confirm the exact reference, condition and availability for each enquiry.

## HONEYWELL / SYSTEM FAMILIES

# Identify your control platform.

Share the full module reference and revision shown on the label, along with the system it belongs to.

- 01 **TDC 2000**
- 02 **TDC 3000**
- 03 **TPS**
- 04 **Experion PKS | C200, C300**

[Send the module label](#)

Honeywell modules. Include the full label reference.

GENERAL ELECTRIC / RANGE INDEX

# Keep every part of the reference.

Include the full order code, suffix and revision. A family prefix alone does not identify the complete unit.

PLC AND I/O FAMILIES

|                  |       |
|------------------|-------|
| Series 90-30 PLC | IC693 |
| VersaMax         | IC200 |
| Series 90-70 PLC | IC697 |
| PAC Systems RX7i | IC698 |
| PAC Systems RX3i | IC695 |
| Genius I/O PLC   | IC660 |

Share your GE parts list →

BOARD FAMILIES

|            |               |
|------------|---------------|
| Mark IV    | DS3800        |
| Mark V     | DS200         |
| Mark VI    | IS200 / IS215 |
| 531 Series |               |

For a board enquiry, include a clear label photo and all suffix or revision markings.

## MORE SYSTEM FAMILIES

# More platforms. One clear enquiry.

Keep the manufacturer, system family and exact component reference together in your parts list.

**01 Triconex**

Tricon system cards

**02 Schneider Electric**

Quantum 140 Series  
Modicon Premium

**03 Siemens**

MOORE  
S5

**04 Foxboro**

I/A Series system modules

Ask about the exact model you require, including its revision, quantity and required date.

## FROM EQUIPMENT TO ENQUIRY

# A clear reference is a better starting point.

Photograph the label and keep the complete code. Add the system context so your request is easier to review.

01

## Identify

Manufacturer, full part number and revision.

02

## Show

A clear label photo and equipment context.

03

## Specify

Quantity, required date and destination.

ABB / Bailey hardware. Record the full component reference.

## YOUR ENQUIRY CHECKLIST

# Fill it in. Save a copy. Send it.

Complete the fields below, then attach the saved PDF and label photos to your email.

**Manufacturer****Full part number****Revision / suffix****Quantity****Required date****Delivery destination****System / equipment and any further details****Email your completed request**

Attach the saved file manually. This PDF does not send your entries automatically.

**CONTACT APTER POWER**

# Your next step starts with a part number.

Send a single reference, a label photo or a complete parts list. Include your quantity and required date.
