Product dashboard

Bently Nevada 04300111 identifies the screw set used with a half-height module internal chassis in a 3500 System Rack. The documented order quantity is three screws for the chassis assembly.

Exact model	Product type	System family	Functional role
04300111	Half-Height Module Chassis Screws	3500 System Rack	Rack Hardware

PARAMETER	DOCUMENTED VALUE
Exact part number	04300111
Hardware type	Assembly screws
Documented quantity	3
Application	Half-height module internal chassis
Rack family	3500 System Rack
Companion chassis	125388-01
Companion card guide	125565-01
Acceptance	Count, seating and chassis retention

Release basis: verify the exact identity, retained host relationship, connected interfaces and controlled functional result.

04300111

System overview

04300111 secures the documented half-height internal-chassis arrangement and must be counted, matched and tightened according to the approved rack-maintenance procedure.

Installed-system renewal

Restores the documented 04300111 position while keeping the approved host and interfaces.

Controlled maintenance

Supports as-found recording, safe isolation and exact connection restoration.

Compatibility review

Compares the full marking, host, connectors, settings and companion hardware.

Commissioning evidence

Records diagnostics and a controlled functional test of mechanical retention of the half-height module internal chassis.

SYSTEM POSITION	RECORD
Installed identity	04300111

Technical data map

PARAMETER	VERIFIED VALUE
Exact part number	04300111
Hardware type	Assembly screws
Documented quantity	3
Application	Half-height module internal chassis
Rack family	3500 System Rack
Companion chassis	125388-01
Companion card guide	125565-01
Acceptance	Count, seating and chassis retention

CONTROL BAND	VERIFICATION RECORD
Identity	Exact model and complete label
Mechanical	Form, seating and retention
Interfaces	Power, wiring, communication and protection
Configuration	Settings, project and revision
Release	mechanical retention of the half-height module internal chassis

Technical evidence record: 141525 Rev. M / 141532 Rev. W

04300111

Applications and precautions

1. Confirm the complete 04300111 marking before work.
2. Place the affected equipment in its approved maintenance state.
3. Isolate connected energy and prove the circuit safe.
4. Photograph the slot, wiring, connectors and settings before removal.
5. Match every documented interface and companion component.
6. Restore mechanical retention, shielding and protective earth.
7. Review hardware, network and controller diagnostics after energization.
8. Functionally verify mechanical retention of the half-height module internal chassis before service release.

Complete each check against the installed record; hold release when any identity, connection, configuration or diagnostic result differs.

04300111

Buyer and engineering FAQ

What does 04300111 identify?

04300111 identifies the half-height module chassis screws used for mechanical retention of the half-height module internal chassis.

Which installed system must 04300111 match?

Match 04300111 to the recorded 3500 System Rack host, position and companion hardware.

Which markings must be checked on 04300111?

Verify the complete 04300111 text and every suffix, revision or assembly marking on the supplied item.

What should be recorded before removing 04300111?

Record the slot, connectors, cable labels, switches, parameters, adjacent hardware and diagnostic state.
