Bently Nevada

04300111

Half-Height Module Chassis Screws

Bently Nevada 04300111 identifies the screw set used with a half-height module internal chassis in a 3500 System Rack. The documented order quantity is three screws for the chassis assembly.

System position

Exact identity	System family	Functional role	Release basis
04300111	3500 System Rack	Rack Hardware	Recorded test and diagnostics

Keep the hardware and configuration identities together

04300111 secures the documented half-height internal-chassis arrangement and must be counted, matched and tightened according to the approved rack-maintenance procedure.

IDENTITY / RESOURCE	DOCUMENTED VALUE
Exact part number	04300111
Hardware type	Assembly screws
Documented quantity	3
Application	Half-height module internal chassis
Rack family	3500 System Rack
Companion chassis	125388-01

Technical evidence record: 141525 Rev. M / 141532 Rev. W

04300111

Interfaces and integration

Define the installed role

04300111 secures the documented half-height internal-chassis arrangement and must be counted, matched and tightened according to the approved rack-maintenance

Exact part number	04300111
Hardware type	Assembly screws
Documented quantity	3

Map the host relationship

The complete 04300111 identity is matched to the host position, companion hardware and retained engineering record before any connection is disturbed.

Host	3500 System Rack
Primary role	mechanical retention of the half-height module internal
Acceptance	Diagnostics and functional response

Interface control matrix

CONTROL BAND	VERIFICATION RECORD
Identity	Exact model and complete label
Mechanical	Form, seating and retention
Electrical	Power, field wiring and protective earth
Communication	Address, network and companion configuration
Configuration	Switches, parameters, project and revision
Release	Controlled test with retained result

Configuration continuity

Retain the recorded 3500 System Rack position, connected interfaces and configuration baseline.

Acceptance evidence

Release 04300111 only after diagnostics and a controlled functional result are recorded.

04300111

Technical resource bands

Only values tied to the complete product identity are listed. Installation-specific settings remain governed by the controlled site record.

PARAMETER	VALUE
Exact part number	04300111
Hardware type	Assembly screws
Documented quantity	3
Application	Half-height module internal chassis

PARAMETER	VALUE
Rack family	3500 System Rack
Companion chassis	125388-01
Companion card guide	125565-01
Acceptance	Count, seating and chassis retention

Identity decision

Accept only the complete 04300111 marking and the recorded hardware execution.

Host decision

Confirm the receiving 3500 System Rack position and every companion component.

Interface decision

Compare mechanical fit, power, field wiring, communication and protective earth.

Release decision

Record diagnostics and a controlled test of mechanical retention of the half-height module internal chassis before handover.

Engineering boundary

Use 04300111 only after the exact host, installed position, companion parts, protection measures and commissioning record have been matched. Do not borrow ratings from a similar-looking variant.

04300111

Controls and service logic

Installed-system renewal

Restores the documented 04300111 position while keeping the approved host and interfaces.

Controlled maintenance

Supports as-found recording, safe isolation and exact connection restoration.

Compatibility review

Compares the full marking, host, connectors, settings and companion hardware.

Commissioning evidence

Records diagnostics and a controlled functional test of mechanical retention of the half-height module

Service decision path

STEP	REQUIRED OUTCOME
1. Identify	Read 04300111 and all companion markings
2. Compare	Host, position, connections, settings and revision
3. Install	Restore wiring, shielding, retention and protection
4. Verify	Review diagnostics and execute controlled function test

04300111

Engineering decisions

What does 04300111 identify?

04300111 identifies the half-height module chassis screws used for mechanical retention of the half-height module internal chassis.

Which installed system must 04300111 match?

Match 04300111 to the recorded 3500 System Rack host, position and companion hardware.

Which markings must be checked on 04300111?

Verify the complete 04300111 text and every suffix, revision or assembly marking on the supplied item.

What should be recorded before removing 04300111?

Record the slot, connectors, cable labels, switches, parameters, adjacent hardware and diagnostic state.

Can 04300111 be replaced by appearance alone?

No. 04300111 requires an exact identity and interface match against the installed-system record.

How should 04300111 be isolated?

Use the approved maintenance state, remove connected energy and prove the affected circuit safe.
