6DS1003-8BA

01 / System identity and applicability

TELEPERM M Module

Siemens 6DS1003-8BA is offered for maintenance of a TELEPERM M process-control installation. Match the full module marking and physical assembly to the installed unit before selecting a replacement.

Verified context

Product type	TELEPERM M system module
System family	TELEPERM M

System integration

TELEPERM M is a Siemens process-control platform used in existing plant systems. The module position, rack interface and project wiring must match the installed configuration. Preserve the removed unit identification and connection record before exchange.

Selection boundary

The Siemens reference describes the TELEPERM M platform. The complete 6DS1003-8BA marking and installed project record determine the applicable module function, connections and electrical ratings.

Technical basis

Siemens process-control overview, TELEPERM M platform context.
