6DS1003-8BA

01 / Product and system context

TELEPERM M Module

Siemens 6DS1003-8BA is offered for maintenance of a TELEPERM M process-control installation. Match the full module marking and physical assembly to the installed unit before selecting a replacement.

Product identity

Product type	TELEPERM M system module
System family	TELEPERM M

System integration

TELEPERM M is a Siemens process-control platform used in existing plant systems. The module position, rack interface and project wiring must match the installed configuration. Preserve the removed unit identification and connection record before exchange.

Application contexts

Existing process-control systems

Use in a documented TELEPERM M installation after matching the complete module identity.

Installed cabinet maintenance

Select for the same approved cabinet position, rack interface and site wiring arrangement.

System-specific replacement

Compare the physical assembly and all identification markings with the removed module.

Controlled recommissioning

Return the affected plant functions to service only after the approved installation checks.

6DS1003-8BA

02 / Selection and acceptance

Installation checks

Exact marking	Confirm the complete 6DS1003-8BA label, revision and physical execution.
Host configuration	Check the intended TELEPERM M host, connections and fitted accessories.
Configuration record	Retain the installed parameters, addressing and wiring information for 6DS1003-8BA.
Functional release	Verify affected teleperm m module functions and diagnostics after installation.

Selection boundary

The Siemens reference describes the TELEPERM M platform. The complete 6DS1003-8BA marking and installed project record determine the applicable module function, connections and electrical ratings.

Ordering questions

Which system family is associated with Siemens 6DS1003-8BA?

TELEPERM M is the relevant Siemens process-control platform.

What identifies the exact Siemens 6DS1003-8BA execution?

Use the complete module marking and any fitted revision or assembly identification.
