XN06

Technical Reference | verified identity and ratings

The functional name is from the authorized Contronic 3 material list; the unit photographs confirm identity. Electrical ratings and terminal functions are not established by those sources.

Verified technical data

Product family	H&B Contronic 3
Observed construction	Front-panel plug-in module
Functional designation	Universal Redundance Circuit (Analog and Supply Part)
Ordering identity	XN06 (XN 06)

Technical interpretation

Use the complete module marking to locate the corresponding cabinet drawing and host position. Do not derive a voltage, current, channel count or terminal assignment from the functional name or board appearance.

Evidence and applicability

3P Automation Contronic 3 material list: XN06 functional name; Apter Power photographs: complete XN06 identification.

The material-list wording establishes the functional name only. Electrical ratings, terminal assignments and approved interchangeability require matching original manufacturer data or the installed project record.
