# XN05

Technical Reference | verified identity and ratings

The functional name is from the authorized Contronic 3 material list; the unit photographs confirm identity. Electrical ratings and terminal functions are not established by those sources.

## Verified technical data

| | |
|---|---|
| **Product family** | H&B Contronic 3 |
| **Observed construction** | Front-panel plug-in module |
| **Functional designation** | Universal Redundance Circuit (Monitoring Part) |
| **Ordering identity** | XN05 (XN 05) |

## Technical interpretation

Use the complete module marking to locate the corresponding cabinet drawing and host position. Do not derive a voltage, current, channel count or terminal assignment from the functional name or board appearance.

## Evidence and applicability

3P Automation Contronic 3 material list: XN05 functional name; Apter Power photographs: complete XN05 identification.

The material-list wording establishes the functional name only. Electrical ratings, terminal assignments and approved interchangeability require matching original manufacturer data or the installed project record.
