VV11

Technical Reference | verified identity and ratings

Only the product identity and physical construction are confirmed by available unit photographs; no electrical function or rating is assigned to this execution.

Verified technical data

Product family	H&B Contronic 3
Observed construction	Plug-in circuit board
Ordering identity	VV11 (VV 11)

Technical interpretation

Use the complete module marking to locate the corresponding cabinet drawing and host position. Do not derive a voltage, current, channel count or terminal assignment from the functional name or board appearance.

Evidence and applicability

Apter Power photographs: complete VV11 identification and physical form.

No model-specific original manufacturer electrical ratings, terminal assignments or approved interchangeability have been confirmed; these are intentionally omitted.
